# Introduction

I am a pragmatic. But, I am learning to be an optimist. If I look back at the thirteen years of work, I am astounded time and again. That just cannot be thrown away and left behind. Those countless projects that we realized by ourselves, or in cooperation with our partners and friends. The countless forgotten, but also still functional contacts, without whom we would be nothing and the work in a community foundation would lost all meaning. The invisible network of altruists, who want something better for their community and do something about it. The network that we helped to create and became a part of. Despite this amazement and the optimism that flows from it, we still have to pragmatically ask, how to secure another year of running of the foundation.

We are satisfied when looking back at the last year. Many things panned out well, and there were no real failures. We are proud of our victory in the competition for V4 community foundations „Tell Me Your Story...“, we participated on a special

call for proposals „Put Topvar to Work“ and we created a campaign, that connected all our charity projects. We named it the Heart Campaign and this year, it helped to support people and organizations that would otherwise not get this chance. We also continued our traditional projects and with the added experience of the past years, we were able to execute them with more quality and less effort. Also worthy of mentioning is the auction of valued wines with the international oenolog Edita Ďurčová and Marta Sládečková and the Christmas Bazaar with Adela Banášová.

The unique red heart became the symbol of 2013. By that, we meant to say that what we are interested in are the people and we would be very happy, if the people stayed interested in our work.

# Mission of the foundation

**It was founded as a community foundation in December 2000 and since its inception, it was focusing on creating a strong financial and technical background for the support of local activities. Beside own projects, the foundation provides grants to other NGOs and active groups of citizens. It supports mostly regional activities and smaller projects.**

The foundation develops donorship and supports the creation of social capital in the region of Trenčín. It provides possibilities for donors to implement their own ideas and also to support meaningful activities that bring about the improvement of living conditions for the whole community.

The foundation uses gained resources effectively and transparently to support the solutions of current problems and to seize interesting opportunities. It builds up the foundation equity as a durable financial source of support for the community.

The Foundation offers administration of foundation funds and the Open Grant Making Program focused on the children's free

time, education, helping persons with disabilities, culture and sport, support of traditions, neighbourhood activities or improvement of the environment. It also offers knowledge of the region of Trenčín and the NGOs, presentation events, events „tailor-made“ for the donor's purpose and activities for the public.

The foundation operates mostly within the region of Trenčín, exceptionally nation-wide. Its activities are very accessible, the donors and the grantees have direct access to the office of the foundation, or they can check the information on [www.trencianskanadacia.sk](http://www.trencianskanadacia.sk).

## What makes the foundation unique

- **We have been tested by time** – We have been providing grants to other NGOs and individuals to implement good projects for 13 straight years
- **We know the ones who we provide with grants** – We maintain and widen the database of the NGOs. We know the work of many NGOs not just from the grant applications, but also from the field
- **We can pool together smaller sums to make them really count** – if more donors have the same priorities, we can put them together to cover the need in that area
- **We can manage both small and large amounts of funds with the same care** – the gains of the foundation in 2013 were 53 645 Euros together, with the smallest amount being 100 Euros
- **We return the tradition of philanthropy and of joy of donating to help others among the people** – We take good care of our corporate donors. We submit reports on the use of their donations to them and we invite them to participate on the social life in the town and in the region

# Our Donors and Partners

We thank the donors, the friends and the supporters of our foundation for their faith and for their financial and non-financial support in 2013. We still offer:

- Possibility to invest „at home“. To support with a contribution projects in the place where they live or run business
- To decide for what purpose they donate their money
- To choose from different forms of donations one that is ideally suited to their idea of donorship
- To pool a donation with other donations and thus help to realize a bigger project
- Fast and simple administration of the process of donating
- To verify the use of the donation
- Professional management of the donated resources without the costs of running their own foundation
- Possibility of leaving a trace for the future in case they decide to donate to the foundation equity

# Donors Club

The Donors Club is a special mean of support of individual donorship, unique to our community foundation. Since 2003, it puts together a group of people that, through the Trenčín Foundation, regularly support meaningful activities in Trenčín. It consorts not just citizens of Trenčín, but also donors from surrounding towns, whose lives are connected to Trenčín. The members of the Donors Club contribute each year with a financial sum of money and at the club meetings, they decide about the use of all donated resources.

# Grant Making Program

The cornerstone program, implemented since the founding of the foundation in 2000 focused on a financial and methodical support of NGOs, informal groups and individuals in the region of Trenčín to help them realize their welfare activities. Its fundamental pillar is the financial resources of the important donors from within and outside the region. In 2013, the foundation carried out 5 calls for proposals and supported 37 projects in the amount of 18 702 €.

## Youth Bank Call for Proposals

A volunteer program for young people, that operates within the foundation since 2003. A group of students administer their own grant making program for young people. They decide, to whom the particular year will be dedicated, which area of support is the most important for them and how high grants they can award. In 2013, they divided 2 254 € between twelve successful applicants.

## Donors Club Call for Proposals

The Donors Club is a very valuable mean of support of individual donorship. The call of proposals is announced in June with the closure in September and it culminates with a regular meeting of the members of the club in October that is characteristic by the presentation of the applicants' projects. In 2013, the members of the Donors Club evaluated 3 successful projects and awarded financial support in the amount of 1 700 €.

## Put Topvar to Work Call for Proposals

The financial resources into the call for proposals aimed at improvement of the environment of towns from the municipalities of Bánovce nad Bebravou, Hlohovec, Ilava, Levice, Myjava, Nitra, Nové Mesto nad Váhom, Partizánske, Piešťany, Prievidza, Senica, Skalica, Topoľčany, Trenčín, Trnava a Zlaté Moravce, have been donated by Brewery Topvar, a.s. company. ## New Ideas on the Váh Call for Proposals

After the good experiences with calls for proposals in the region of Trenčín, we have, thanks to the support of Emerson, a.s. company, distributed financial resources in the amount of 3 524 € between 8 organisations and informal groups from the municipality of Nové Mesto nad Váhom. The financial resources came from the 2 % of the taxes for 2011.

## Purpose Bound Donations
